

Step-By-Step Instructions

Once you have created a Google Map account and you have signed in you should see something like this.
(Below)

Focus at the upper left corner on the map above and look for this area
(Below)

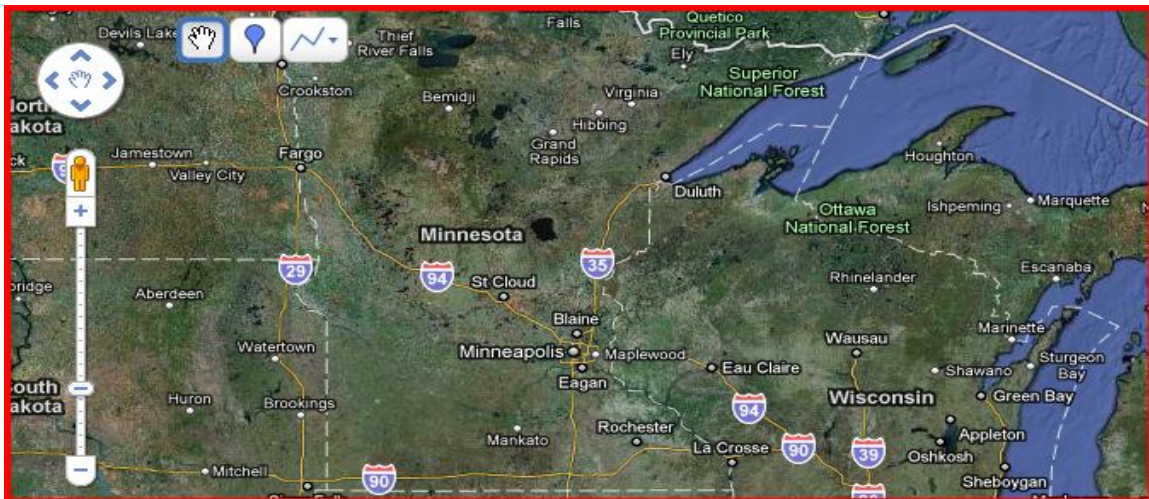

Notice that there are no map icons next to the round thing in the upper left corner (if you follow these instructions that will change).
These maps are in satellite view. You can use map view if you want it's a little faster.
(Below)

Now click on the link "My Maps" and look below the "Get Directions" for the new link "Create new map" Click on that link.
(Below)

Notice now, next to the round thing in the upper left, are three new map icons, if you see these you are on track.
(Below)

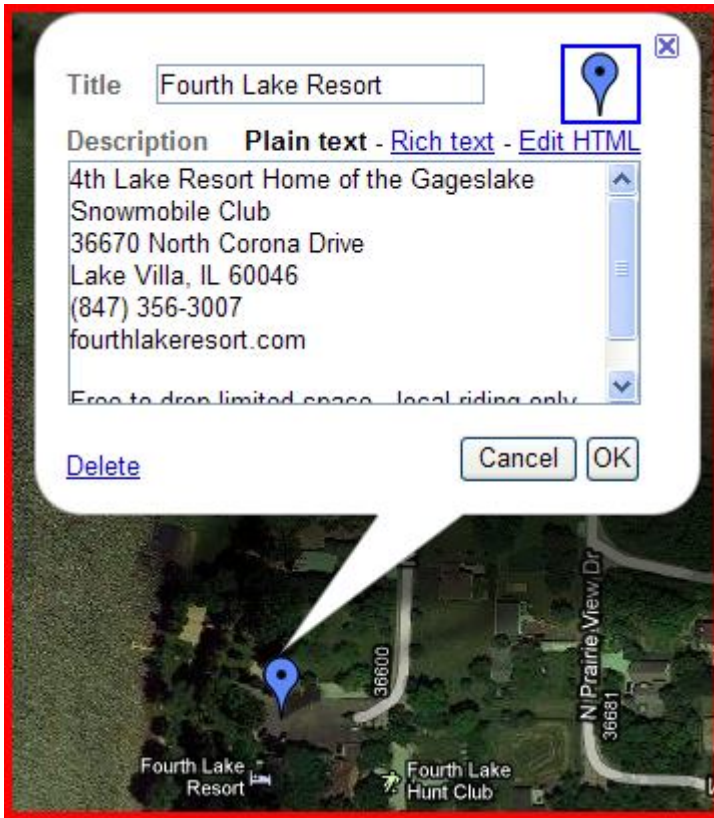

Now zoom in to the map area you want to mark. You can double click on the map or use the slider bar below the round thing.
(Below)

Now click on the blue balloon icon, as soon as you click on it the balloon will attach to your mouse pointer. Drag the balloon to your drop point and left click the mouse to anchor it.
(Below)

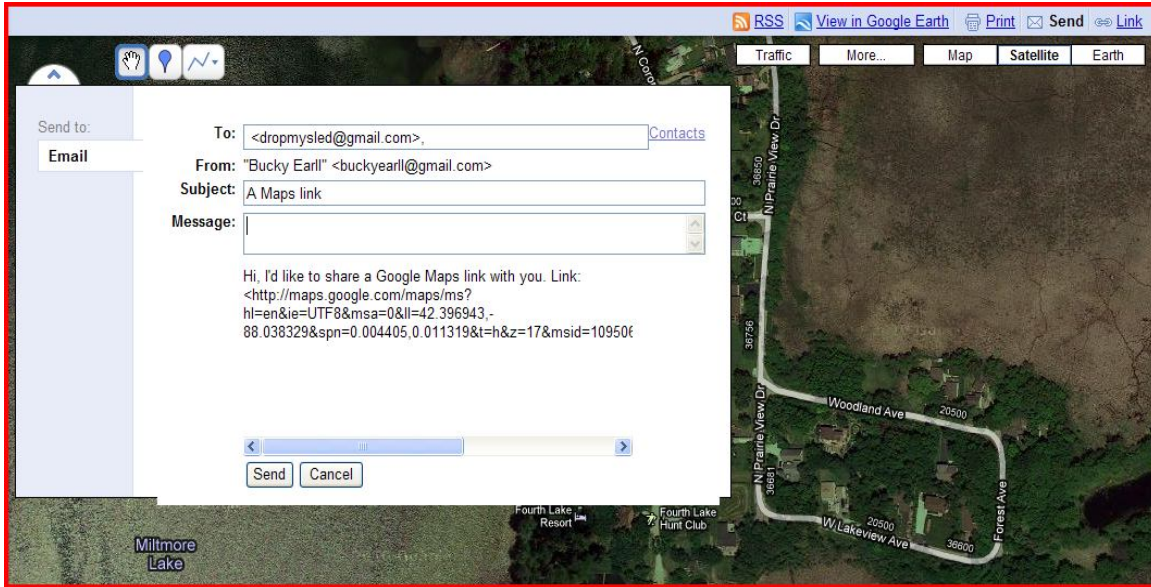

A box will open allowing you to name the drop site and fill in all the details which should include "Are there fee's...and anything you feel is appropriate. Like... website, hours of operation, how large is the parking area, how close is it to the trail, or anything you want. The click OK.
(Below)

Now looking at a larger picture of the same screen you will see in the upper right "Print, Send or Link" Press the send link.
(Below)

This box will open, please send it to dropmysled@gmail.com, it pre-fills your information.
Then press send
(Below)

And Thank You!
